To Whom It May Concern

Subject : Letter of confirmation

This is to confirm that the following product manufactured by Titan Petchem (M) Sdn. Bhd.,

TITANPRO SM598

when leaving the factory, have the following compliance status with the below mentioned food contact regulation.

The composition of the base polymeric component(s) in this polymeric grade complies with the positive lists for allowed monomers in Directive 2002/72/EC ("EC Commission Directive of 6 August 2002 relating to plastics materials and articles intended to come in contact with foodstuffs"), published in the Official Journal of the European Communities (OJEC) of 15 August, 2002, and its subsequent amendments, respectively 975/2009 (OJ of 19.10.2009). **None of the monomers used are currently subject to restrictions and/or specifications.**

The additives used in this polymeric grade comply with the incomplete lists of allowed additives in Directive 2002/72/EC and its subsequent amendments. **Some of the additives used are currently subject to restrictions and/or specifications.**

However, the final articles intended to come into contact with foodstuffs must comply with Article 2 of Directive 2002/72/EC and its subsequent amendments. **This requires migration tests on the final, ready-to-use articles where possible, and is under the responsibility of the final article fabricator.**

This information is provided for general guidance purposes only and we provide no guarantees or warranties in respect of this information and have no responsibility or liability for any use by any third party of this information.

Provided that appropriate processing is carried out, this product can be used for food contact materials or articles according to articles 3 of Regulation (EC) 1935/2004. Compliance with the provision of regulation (EC) 1935/2004 especially the suitability of the articles for the given application, the smell and taste of the food, and observance of any given limitations must be ensured by the final articles fabricator.

This information is provided for general guidance purposes only and we provide no guarantees or warranties in respect of this information and have no responsibility or liability for any use by any third party of this information.

The above information supplied is to the best of our knowledge. However, since the actual conditions of use and the specific uses of our products are beyond our control, the user necessarily assumes all risks of their uses. As such, all users must make their own determination that the uses of our products are safe, lawful and technically suitable in its intended application.
